

## AP Statistics and Calculus BC Summer Assignments

Both summer assignments can be found on google classroom.

AP Stats class code: sbchthi

Calc BC class code: s4pzkez

Calculator: You do not need a calculator for the ap stats assignment but I can help. A couple parts of the calc assignment will be very difficult without a graphing tool; but you should be able to use Desmos instead of the calculator if you don't have one.

Textbook: Stats will need the book to start the reading guide for chapter 4. Calc will not need the text book but it may make it easier to look up the questions.
